RE: Sauget Area 2, Site Q, Sauget/Cahokia, IL

Dear Mr. Cuffman:

This letter is written as a supplemental response by BASF Corporation to the EPA's Supplemental 104(e) Request related to the Sauget Area 2, Site Q landfill.

In BASF Corporation's initial response, which was forwarded over cover of letter dated November 16, 1998, BASF indicated that it had requested from United Technologies Corporation (UTC) any relevant documents as well as the present whereabouts of former employees who may have been employed at or have knowledge of two Inmont Corporation facilities in the St. Louis area that BASF believes were operational in the 1970s. We indicated that UTC had not responded to date. Please be advised that UTC has responded to our inquiry and stated that it does not have any relevant documents pertaining to the two facilities. Additionally, UTC subsequently stated that it has no information regarding former employees.

Very truly yours,

Harry M. Baumgartner
Senior Attorney
